The Old Milking Parlour, Peterborough, UK, PE8 5DY

## Summary:

I am a dedicated developer with experience in Linux server configuration, LAMP & MEAN stacks as well as interests in other languages including Python, Java and NodeJS. I have experience in delivering corporate projects to a high spec, on time and within budget. I also build projects based on the Raspberry Pi, Picaxe and Arduino in my spare time, releasing the code open-source on GitHub.

## Clients:

I currently run my own company (CrabLab Limited), providing design, development and hosting services managing a team of freelance developers.

### **Madcast Media Network**

Backend contractor designing Facebook API authentication/login and Braintree payments system

### **JOQ/Social Billboard (socialbillboard.com)**
